**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. The changes are of an editorial nature only, and correspond to the comments made by examiner on pg. 6 lines 7-9 and pg. 7 lines 1-3 of the office action mailed 06/05/08, which were not fully responded to by applicant.

The application has been amended as follows:

In claim 10 lines 14-15, “the calculated/optimized” was replaced with --calculated and optimized--.

In claim 11 line 1, “the calculated/optimized” was replaced with --calculated and optimized--.

In claim 12 line 1, “the calculated/optimized” was replaced with --calculated and optimized--.

In claim 14 line 2, “the splices” was replaced with --splices--.

The title was changed to:

“Method for calculating and optimizing the diameter of a paper or board web reel based on customer splice location restrictions”

***Response to Arguments***

Applicant's arguments, see page 11, filed 11/11/08, with respect to the drawings, specification, and claims have been fully considered and are persuasive. The drawing objection, specification objection, claim objection, and rejections under 35 U.S.C 112 1st paragraph and 2nd paragraph have been withdrawn.

Applicant's arguments, see pages 11-12, filed 11/11/08, with respect to claims 10-26 have been fully considered and are persuasive. The rejection of claims 10-26 under 35 U.S.C. 102(e) as being anticipated by Bush et al. has been withdrawn.

***Allowable Subject Matter***

Claims 10-26 and 28-30 are allowed.

The following is an examiner's statement of reasons for allowance:

Independent claims 10 and 19 are allowable based on Applicant's persuasive arguments, see pages 11-12, filed 11/11/08. Independent claims 28-30 are allowable as previously indicated by examiner.

Specifically, the prior art of record fails to teach or fairly suggest determining the diameter of the machine reel to be wound on the paper or board machine on the basis of restrictions set by the customer on the location of a splice in the customer roll, as recited in claim 10 and similarly recited in claims 19 and 28-30, in combination with the remaining features and elements of the claimed invention.

Claim 28 is additionally allowable as set forth on pg. 13 of the previous office action mailed 06/05/08.

Claim 29 is additionally allowable since the prior art fails to teach or fairly suggest if the remainder reel area is below the acceptable roll area range, then decreasing the area of the presently being formed machine reel so that the remainder reel area is zero; and if the remainder reel area is above the acceptable roll area range, then decreasing the presently being formed machine reel area so that the remainder reel area falls within the acceptable roll area range, in combination with the remaining features and elements of the claimed invention.

Claim 30 is additionally allowable for the same reasons as claim 29, as it recites a similar feature.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***
